Dear Reverend Armstrong:

Well Registration
Kihei Baptist Chapel Irrigation Well

Thank you for your transmittals about your irrigation well, most recently your letter dated November 27, 2007, attaching letters from Howard Owings and Bob Duffer, and a subdivision drawing showing the well location and wellhead photo showing a plastic casing extending above ground. This is very helpful information.

In order to complete this process, we request information about the structure of the well. Perhaps Bryan Sarasin and Mr. Duffer can put together a simple drawing of the underground structure. Mr. Sarasin is a former licensed driller and may be very familiar with the type of construction your well has, and he would be familiar with our procedures. Normally, we require a well completion report prepared by the licensed driller who constructed the well. Those forms are enclosed here for your use, and we would accept Mr. Sarasin’s signature in lieu of the actual driller. If not, please have any licensed driller complete the well completion report forms to the best of his ability.

Also enclosed is a Water Use Report form for your use, as you must record and report your monthly water use in accordance with §13-168-7, Hawaii Administrative Rules.

If you have any questions, please contact Charley Ice of our staff at (808) 587-0251, or toll free from Maui at 984-2400, extension 70251.

Sincerely,

KEN C. KAWAHARA, P.E.

Attention: Charles Ice

Dear Mr. Ice,

Enclosed is information verifying the approximate time when the shallow well on the church property was installed.

This information is follow-up material of an earlier letter, test and drawings dated 10-26-2007 and is in reply to a phone call from Susan Swanson from your office, November 11, 2007, asking for some form of documentation indicating when the well was installed.

I am sending a letter from Mr. Howard Owings, a member of the church for thirty years, a letter from Mr. Bob Duffer who was pastor of the church when the well was installed and a copy of the picture of the well and plot plan that was sent in November of this year.

I trust these items will establish the approximate date in a satisfactory manner.

Thank you for your help,

Glenn Armstrong

Attention: Charles Ice

Dear Mr. Ice,

I am Howard Owings. Pastor Armstrong asked me to write to you to document the approximate time when the well was installed on the Kihei Baptist Chapel property for the purpose of watering the lawn.

I have been a member of the church for nearly 30 years and to my best remembrance the well was already installed when I became a member.

I have worked with the church for all these years and many of them I have taken care of the church grounds. I have first hand knowledge of the well and its use through the years.

I trust this letter is helpful.

Howard Owings
To whom it may concern:

While I was the pastor at Kihei Baptist Chapel, around 1978 or 1979 we dug a well on the property to get water to irrigate the lawn for the church. It has been in continuous use since that time providing water for the grass and trees on the property.

A few years later the well was dug a little deeper. I am not sure what the date would be for that.

Yours truly,

Bob Duffer

Charley, work up/Sumison on this and use old registration documentation. We will have to assign a file reference for this. I don't think we need ATP – unless you think Sarasin testimony is no good.

ON 9-3-07 I CONDUCTED A PUMP TEST TO DETERMINE SALINITY AND CAPACITY. AS THIS IS A VERY OLD WELL, OVER 30 YEARS OLD, I CONDUCTED A TEST AND HERE ARE THE RESULTS:

TEST STARTED AT 6:07 AM ON 9-3-07
FIRST SAMPLE DRAWN AT 6:10 AM, FLOW 15 GPM, SALINITY 625 (MG/L)
SECOND SAMPLE DRAWN AT 2:03 PM, FLOW 15 GPM, SALINITY 650 (MG/L)
THIRD SAMPLE DRAWN AT 9:35 PM, FLOW 15 GPM, SALINITY 700 (MG/L)

9-04-07
FOURTH SAMPLE DRAWN AT 7:48 AM, FLOW 15 GPM, SALINITY 625 (MG/L)
FIFTH SAMPLE DRAWN AT 7:03 PM, FLOW 15 GPM, SALINITY 650 (MG/L)

BASED ON THESE RESULTS, SUSTAINABLE YIELD IS 15 GALLONS PER MINUTE WITH A CHLORIDE (PARTS PER MILLION IS THE SAME AS MG/L) MAXIMUM OF 700 MG/L. IN MY CAPACITY OF WELL CONSULTANT, I CERTIFY THESE RESULTS ARE TRUE AND ACCURATE.

NOTE: A COPY OF THE LABORATORY RESULTS AND CHAIN OF CUSTODY IS ENCLOSURED.
