Dear Water User:

Registration of Wells and Stream Diversion Works
and Declaration of Water Use

As you may know, the State Water Code requires a one-time registration and official declaration of water use for all wells and stream diversion works throughout the State. To assist you in this task, we are forwarding herewith a package of materials which include partially completed well registration forms, extra blank forms, and a copy of a public notice which is self-explanatory.

According to our records, you own or operate a well with an assigned State Well Number. To assist you, we have partially completed the form for this well and have enclosed a 1:24,000 scale map to help in locating and identifying the well. Please correct any of the information we have entered (such as the well name), complete the registration and the declaration of use (if the well was used any time during 1983-87), and return the completed form to this office. If you own or operate any other wells, you must also register each of them and declare any water use made during 1983-87.

If you own or operate any stream diversion works, you must also register each of them and declare any water use made during 1983-87.

The information gathered will provide a comprehensive inventory of water sources and uses throughout the State for the Commission in its management of our water resources.

If you have questions or need assistance or additional forms, please do not hesitate to contact this office at 548-3948 or 548-7543.

Sincerely,

MANABU TAGOMORI
Deputy Director
