SUBJECT: Wells No. 1952-34, 36 HGWCA

DATE: 4/7/81 Meeting w/ Tom Enshaw of Walker - Moody Contractors and Ed Sakoda and Neal Iwada of B.O.W.A.L.D.

- Ed Sakoda and I visited the site which wells no. 1952-34, 36 were to be located on. Presently there is construction going on for a Kabake Building, Walker-Moody Contractors. We talked with Mr. Tom Enshaw, project superintendent. He stated that there were no wells on the jobsite however, there were two sumps (disposal sumps) which had to be filled during the initial phases of the project. Other than these sumps, there were no wells on the construction site.

- Further up the block near Han St. there is an existing 10" waterline coming directly up from the ground. The 10" line branches of into a Y and both lines run along the top of the existing building. Both lines are plugged, however, Tom Enshaw told us that a pump was removed which was located near the intersection of Kalani and McNeil St. (see attached maps)

Apparently the pump was removed several years ago. (see attached map)
SUBJECT: Wells No. 1952-34, 36 HGWCA

Construction under progress:
Kotake Building
Edward M. Kotake - president
P.O. Box 4512
Honolulu, HI 96813
ph. 953-2961

Contractors on site:
Walker-Moody
General office ph. 839-2781
Field office ph. 841-5406
Project Superintendent: Tom Ernshaw
WELL INFORMATION SHEET

Instructions: The following information is currently on file at the Department of Land and Natural Resources, Division of Water and Land Development. If there are any changes, please make the necessary corrections and return to the Department of Land and Natural Resources, P.O. Box 373, Honolulu, Hawaii 96809.

Well Number: 1952-30

Name or Location: Kapalama

Owner or User: Lib. Men Lib Bishop Estate

Year drilled: 1967

Driller: Nat Whiton

Ground Surface Elevation in feet referenced to mean sea level: 15

Casing Diameter in inches: 16

Total depth of well in feet: 80

Casing depth in feet: 46

Major Use:
- [] Domestic
- [] Disposal
- [] Municipal
- [] Unused
- [ ] Lost
- [] Irrigation
- [] Sealed
- [] Recharge
- [ ] Industrial
- [] Observation
- [] Other (specify) _________

Static Water Level in feet: ____________________________

Chloride content of water in milligrams/liter: Salt

Installed pump capacity in million gallons per day: ____________________________

Average annual draft in million gallons per day: ____________________________
