I spoke w/ Alwyn (BWS) who visited the site on July 10, 1985. The plug was fixed by Alwyn and there was just a little leak when he left. Prior to fixing of the plug, there was sufficient flow from the well into the sidewalk and neighboring parking lot.

RE: Registration of Well & Declaration of Water Use  
Well No. 2300-05  
T.M.K: 9-4-13: 04

Dear Mr. Tagomori:  

Pursuant to your letter dated January 31, 1989, please find enclosed our well registration form for Well No. 2300-05 located on the above site in Waipahu. With the help of Paul Haraguchi from your office, we have tried to fill the registration form as complete as possible.

Although Mr. Clifford Yuen is the land owner on which the well sits, Ind-Comm Properties has a long term lease on the property and is the current user.

Please note, that the current land is vacant and that the well is currently not being used. We do not have any historical well data or pump data information.

If we can be of further assistance to you, please contact Robin Oura of our staff at 521-9499.

Yours truly,

called Marlene Young 6/24/85 - Explained BWS logged well on Monday June 24, 1985. They put a temporary plug but apparently it is still leaking a little.

called Robbi Oursa 6/26/85 - Mentioned continued leakage and that BWS already logged well. They will send plumber out to cap well temporarily 'til they decide what to do with it.

called Robbi Oursa 7/9/85 - after receiving complaint from Terry Young of Waipahu Drug that well was still leaking. Robbi mentioned that a plumber is scheduled to go out there and he'll follow up on it.
BWS (Alwyn) received a complaint about the leaking well (6/18/85).
Contacted Robin Oura on 6/18. He's waiting for BWS to log the well, then he will have the well plugged.

BWS is scheduled to log the well Mon or Tues (24 or 25 June). Alwyn will replace the temporary wood plug after the well is logged. Robin On should be notified when logging is done.
6/12/85

Contacted Clifford Yuan - owner 6/9-4-13:45.

Property is located at 305 Excalibur - Mr. Yuan will try to find his number and call back 6/10 or 6/13.

Well formerly used by rice plantation.
18 inch gate valve (frozen), 1½ to 2" pipe with gate valve placed above 18" gate valve - apparently knocked off during demolition.
