

Final Pre-Meeting Notes BGSW6

Visit the Cameca ims 1280 at the W. M. Keck Cosmochemistry Laboratory

We will have an Open House at the ion probe lab on the UH campus on Wednesday, Nov 2, from 1:00 pm to 5:00 pm. We will run a shuttle from the hotel to the lab. The shuttle will run at 1:00 pm, 2:00 pm, 3:00 pm, and 4:00 pm, with returns on the half-hour. The last shuttle will return to the hotel at about 4:45 pm so that you can be there for the reception. Please let us know by email if you are interested in visiting the lab on Wednesday. This will help us with the transportation and we will be able to make sure that you get on a shuttle. You may still come to the Open House without telling us in advance, and you can get to the laboratory using the city bus if you wish (see logistics page). The Wednesday afternoon shuttles to UH will leave from the front driveway of the hotel, and we will have someone there to make sure you get a ride.

We will have another Open House on Saturday from 10:00 am to 2:00 pm. The logistics of this one will be announced at the workshop.

Posters

Each poster presentation will have one side of a 4 ft x 6 ft poster board. Thus, almost any sensible size for your poster is OK. The posters will most likely be deployed at the end of the oral presentations on Thursday and will have to be taken down at the end of the poster session.

Guests for the Friday Dinner

As mentioned on the logistics page, spouses and guests are welcome at the Friday dinner, but we have to charge \$75 per person for the guests. We will be establishing the count for the dinner at the registration on Wednesday evening. We will need to collect the money for spouses at registration to assure that sufficient food is prepared. If you will not be at the Wednesday evening reception to register, please send an email indicating that you will bring a guest to the dinner and be prepared to pay the \$75 early Thursday morning.

Hotel checkout

This workshop is different than most events hosted by the hotel. They are not used to having rooms subsidized by the workshop, or to splitting costs of rooms between guests. The lodging coordinator has warned us that checkout may take longer than usual for this reason. She suggested that anyone who needs a rapid checkout may wish to settle the account the night before so that there are not delays.

See you on November 2!!!
